

April ~ CAPS Meeting:

3:00 pm ~ For refreshments, books & videos

Sunday afternoon, April 1, 2007

At 3:30 PM - Dr. Heinz Lycklama

Speaking on – Creation Evangelism

The infallibility and credibility of God's Word is important in reaching people with the gospel of Jesus Christ, both here at home and overseas. Skeptics and unbelievers think that the Bible is an antiquated religious book filled with scientific fallacies and mistakes reflecting the naïve cosmology of the primitive tribes of the Near East. Even some professing Christians think that the Bible is a book of true religion dealing solely with spiritual subjects and that, where it seems to touch on matters of science and history, it must be interpreted spiritually and allegorically, rather than literally. Examining the Bible more closely, we see that the Bible makes some incredible scientific statements, and in fact has anticipated some scientific discoveries that have only been made over the last two hundred years. We look at four topics that relate to Creation Evangelism today:

1. What does the Bible say about Creation?
2. What do Jesus and the Apostles say about Creation?
3. What does science say about Creation?
4. Does it matter what we believe about Creation?

We show how the message of the Bible is accurate scientifically and can be used to evangelize skeptics and unbelievers. Reference material will be provided to arm those who want to reach out to unbelievers and skeptics with the gospel of Jesus Christ through Creation Evangelism.

BIO

Dr. Heinz Lycklama

earned a Bachelor's degree in Engineering [Physics](#) and a Ph. D. degree in experimental Nuclear Physics from McMaster University in Canada in 1965 and 1969 respectively. Since then he has worked in the telecommunications and computer software industries at Bell Telephone Laboratories in NJ and at Interactive Systems Corporation in CA. In 1992 Dr. Lycklama formed [Open Systems Technology Associates](#) (OSTA) and now offers his technology management services to various start ups in the high technology industry. Being challenged in his [Christian](#) faith by what he was taught in university in the 1960's, Dr. Lycklama has always maintained an active interest in the [Creation](#) vs. [Evolution](#) controversy. As his children reached school age and began to ask questions about what they were taught in school, he became more involved in researching the topic of [Creation vs. Evolution](#). He has developed a series of lectures on this topic over the years and presented the material in Sunday school classes, to college students, during church services, at an overseas seminary in Croatia, and at a Church Camp in Thailand. He lectures regularly with [Powerpoint Presentations](#) helping the believer defend the Bible's teaching on Creation and challenging the skeptic to take an honest look at what the Bible AND science have to say about [Creation](#).

Contact the Heinz Lycklama at Ph/Fx: 360-403-7445/6, or E-mail: heinz@osta.com

CAPS is having regular monthly meetings, and special meetings for touring speakers, generally at 3 PM on the second Sunday each month at the Bellevue Church of Christ. This serves as a forum to promote the development of creation-science education. We have lectures or videos, with refreshments and fellowship. Come and learn about Creation Science, help us plan activities.

Please Bring Refreshments at 3 pm
